# Ahmed Elgharably

ML Engineering Intern - FlyRank

## IDENTITY KIT

A calm, evidence-first visual system. The work speaks; the frame stays quiet.

## TYPOGRAPHY

### HEADING FONT

Space Grotesk

**The quick brown fox jumps**

Aa Bb Cc Dd Ee Ff 123

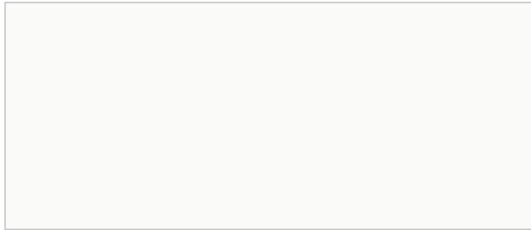

### BODY FONT

Inter

I write like I talk. I show my work. I don't claim things the data can't back. If I wouldn't say it out loud to someone I respect, it doesn't go in.

Regular 400 - Medium 500 - Bold 700. Optimized for screens, generous line-height (1.6-1.7), never smaller than 13px.

## PALETTE

**Background**

#FAFAF9

**Text Primary**

#0F172A

**Main**

#0D9488

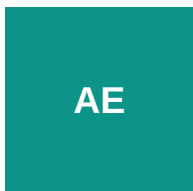

**Accent**

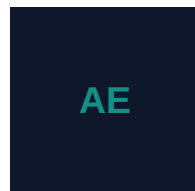

#F59E0B

The accent is used sparingly: one highlight per page, a single CTA button, or a small flag. Never for body text or backgrounds larger than 40px.

## LOGO / FAVICON

64x64 - light bg

64x64 - dark bg

**Ahmed Elgharably**

Wordmark - Space Grotesk Bold - sentence case

## STYLE NOTE

Fonts: Space Grotesk for headings (geometric, calm authority). Inter for body (neutral, readable, screen-optimized).

Palette: Warm stone background (#FAFAF9), deep slate text (#0F172A), teal main (#0D9488),

amber accent (#F59E0B) used once per page.

*Mood: Quiet confidence. The frame stays out of the way so the evidence and the code are the loudest things on the page.*
